## **What you need to do first**

- 1) You will need to become a member of the scheme, even if you have used Shopmobility before, as this is a new service.
- 2) You will need to do a basic training course to make sure you know how to use the scooter properly; this is a requirement of the Insurance for the scheme.

## **The Future**

You will be able to get information and support from our advisors if you are disabled, elderly or a carer.

One Voice and its partners would like to talk to people using Shopmobility and see how they would like the service to grow.

There will be people around to talk to you to find out how you feel about things like

- ▶ Which days are best for the service?
- ▶ What other services you might like when you come to Shopmobility

- ▶ How you might like to get involved with the service in the future – may be you would like to volunteer.

## **Getting started**

As with all new things we may not always get things right if you have any concerns, suggestions or comments please contact us and we will work with you to make sure Shopmobility becomes a real community project.
